

SRIRAM S

MERN STACK DEVELOPER

Chennai, India | +91 9789942922 | sriram24112001@gmail.com

GitHub: github.com/Sriram-2411 | LinkedIn: linkedin.com/in/sriram-s | Portfolio: sriram-portfolio.vercel.app

PROFESSIONAL SUMMARY

MERN Stack Developer with a strong foundation in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing authentication, managing databases, and creating responsive user interfaces. Built and deployed practical web applications through projects, with a focus on clean code, usability, performance, and maintainable solutions.

EDUCATION

Master of Computer Applications (MCA) — DS Engineering College, Anna University

2024

CGPA: 8.37

Bachelor of Computer Applications (BCA) — DS Arts and Science College, Madras University

2022

CGPA: 7.25

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, JSX, Bootstrap, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, RESTful API Design & Integration, JWT/Session-based Auth basics

Database Management: MongoDB, Mongoose ORM, MySQL, Schema Design

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Postman, Vercel, Render, Canva, MS Excel

Other Skills: Cross-Browser Compatibility, Agile/Scrum Basics, CRUD Operations, Debugging & Testing, Version Control Workflows

PROJECTS

BiteBox — Full-Stack Food Ordering Web App

bitebox-p3sm.vercel.app

- ▶ Built a full-stack food ordering platform with browsing, cart, and order placement flows, using React.js for the UI and a Node.js/Express backend with MongoDB for menu and order data.
- ▶ Designed responsive, mobile-friendly pages with reusable components and deployed the live application on Vercel.

Visitor Pass Management System

visitorpassmanagementsystem-2-r0ob.onrender.com

- ▶ Developed a full-stack web application to digitize visitor registration and pass issuance for organizations, including visitor check-in/check-out tracking and pass status management.
- ▶ Built REST APIs and a MongoDB-backed data layer with a React frontend; deployed the live application on Render.

TaskFlow — MERN Stack Task Manager

github.com/Sriram-2411

- ▶ Built a full-stack task management application using React.js, Node.js, Express.js, and MongoDB, supporting full CRUD functionality, status workflow (To Do / In Progress / Done), and priority-based filtering.
- ▶ Designed the Mongoose schema and REST API endpoints (GET, POST, PUT, DELETE) for task management; integrated frontend with backend using Axios and React Hooks for real-time UI updates.

Responsive Business Website

github.com/Sriram-2411

- ▶ Developed a fully responsive, multi-section website (Home, About, Services, Portfolio, Contact) using HTML, CSS, and Bootstrap, optimized for consistent rendering across screen sizes and browsers.

CERTIFICATIONS

IBM Certificate — MERN Full Stack Development, SLA Institute

2026

Python Programming Certification, Besant Technologies

INTERSHIP EXPERIENCE

Python Web Development Intern — Shias Info Solutions Pvt Limited

Mar 2024 – Jul 2024

- ▶ Wrote Python automation scripts to streamline repetitive web workflows, reducing manual effort and processing time.
- ▶ Contributed to UI development and page-level performance optimization, improving page load times.

ADDITIONAL PROFESSIONAL EXPERIENCE

Customer Support Associate — First Source Pvt Limited

Sep 2024 – Sep 2025

- ▶ Managed client email communications regarding member and claim discrepancies, maintaining HIPAA-compliant documentation and data integrity.
- ▶ Worked within a VMware-based virtual desktop environment, demonstrating adaptability, process discipline, and remote-collaboration skills transferable to distributed engineering teams.
